BRIEFING MAGAZINE EDITORIAL CALENDAR 19/20/21

OCTOBER 2019: PROCUREMENT TO BE

We know the in-house procurement function is growing in power, but how are its specific cost-cutting tactics changing, and how are firms to respond?

NOVEMBER 2019: CEO INTO THE FUTURE

The big Briefing interview - TBC

DECEMBER 2019: THE LAW FIRM OF 2020

The much-anticipated law firm of 2020 is finally here! How does reality measure up to the many predictions?

FEBRUARY 2020: REWRITING THE ROLE

As innovation initiatives bed into firms alongside multiple other priorities, how are legal COOs themselves evolving to keep firms powerfully future-proofed?

MARCH 2020: CULTURE LAWS

Do law firms need a role dedicated to preserving, nurturing or fixing the concept of organisation 'culture'? Is it something anyone can really manage? If so, how do they – or others – go about that work, ensuring operations run smoothly in line with identified values?

APRIL 2020: ECOSYSTEM FRIENDLY?

Technology isn't the be-all-and-end-all. We know. Innovation isn't all about technology. For sure. But legal still relies on IT, right? Where's it working for them, and where does it drive them up the wall? From nurturing new software suppliers themselves, to the latest in big-system thinking, where's the legal IT ecosystem headed and what's at stake?

MAY 2020: GETTING WARMER

As momentum builds behind the idea of flexible-working options becoming the norm rather than an exception, would law firms really be ready for such a move?

JUNE 2020: COMPANY BENEFITS

Briefing turns 10 in the year marking five from the first UK law firm floating. Since then speculation about the next has rarely been far away – but how has legal business strategy changed as a result?

JULY/AUGUST 2020: KEY MARGINALS

Legal was late to convert to the world of continuous improvement. How do firms' legal process improvement (LPI) teams and initiatives tap into thinking around making the most of marginal gains?

SEPTEMBER 2020: LISTEN VERY CAREFULLY

'Client listening' isn't a new concept by any stretch, but the clients' needs are growing more complex – how are firms fighting to position themselves as the best listeners, and leveraging it for more business?

OCTOBER 2020: THE BIG INTERVIEW

In the Briefing spotlight – we press a leading legal business figure of the year (even harder than usual) to reveal the top pressures and pitfalls, with perhaps a few handy pointers, in their particular sphere of influence

NOVEMBER 2020: A CUNNING SCAN

Brexit? Who knows (at the time of writing)? Still, the work of horizon-scanning is certainly key to keeping on top of business risks of all stripes as they keep on coming. How are technology and other management interventions helping to manage the most unpredictable events that may impact client outcomes and profitability?

DECEMBER/JANUARY 2020: NEW LAW'S FOR OLD

Does the legal future look like lying in the worlds of 'old' and NewLaw joining forces to take on serving clients as one? What would this mean for the way everyone involved in the equation is managed?

BRIEFING SUPPLEMENTS

BRIEFING SPECIALIST EVENTS

We're not just about conferences at Briefing. We revel in creating fascinating micro events, delivering content-led roundtables and helping clients by presenting at or facilitating client-delivered dinners, small events and training.

Briefing FRONTIERS

Our half-day micro event strand Briefing Frontiers deals in bleeding-edge technology thinking for legal business.

Frontiers unpacks and explores the technologies and innovations that legal businesses can exploit to become more capable and competitive. Events are free to attend for our law firm audience, but open only to senior decision-makers in top-tier firms.

Briefing ROUNDTABLES

We can leverage our engaged audience of senior management in legal business to produce intimate knowledge-sharing experiences for our audience and our clients.

We always prefer to put on roundtable events with a content 'hook', such as a piece of research, because we know that this legitimises the event and provides a reason for everyone to get involved. We also facilitate and engage in client-led roundtable events as industry experts and experienced conversation-wrangers.

Briefing[▲]

FRONTIERS

Our half-day micro events focus on key areas and topics, from artificial intelligence to automation, from information security to smart contracts.

Specific focus areas for Frontiers include:

TRIM This is the final size of the issue after the 'bleed' has been cut off.

BLEED This is the portion of your design that will be trimmed off when the magazine is cut to the final size. Its purpose is to make sure your design or image reaches right to the very edge, leaving no unsightly white edges.

LIVE AREA This is an area inside the 'trim'. The safe area is kept well away from the blade and so this is where you should place your most important information or sections of your design. Anything outside of this area runs a risk of being cut off!
